NYE WOULD DIVORCE NEUTRALITY ACT

SENATOR NYE URGES CASH AND CARRY AND RETENTION EMBARGO

SENATOR TOBE ALSO PLEADS FOR SPLITTING PRESENT BILL IN TWO

WASHINGTON, Oct. 5. (P)—Senator Nye (R-ND) demanded today that the administration agree to divorce proposed repeal of the arms embargo from its "cash and carry" program of neutrality legislation.

Proponents of the administration legislation, he charged, "are taking the position that" repeal of the embargo must be effected before other provisions of the pending neutrality bill, which would restrict the nation's foreign trade, could be enacted.

That, he asserted, "misleads the people and jeopardizes the peace of the United States."

"There is no good reason," he told his colleagues, "why we should not have both the arms embargo and the cash and carry provision."

One of the leaders of the opposition to the bill in its present form, Nye declared:

"There can be quick passage, through the senate and through the house, of legislation to provide a cash and carry provision to cover all commerce which is not covered by the existing embargo law."

Nye took the floor after Senator Tobe (R-NH) had spoken first advanced yesterday, to split the present bill in two, and now the shipping controls and other similar provisions, and take up later the question of repealing the embargo.

Nye spoke in a time previously assigned to Senator Overton (D-La.).

On the house side, Rep. Mundt (R-SD), charging "strategists" of the arms embargo to split the present bill in two, and now the shipping controls and other similar provisions, and take up later the question of repealing the embargo.

RENEW CAMPAIGN AGAINST NAZIS IN RUMANIA THURSDAY

ARRESTS FOLLOW QUESTION- ING OF WOMEN EMPLOYEE OF ARMY-BUREAU

BUCHAREST, Romania, Oct. 5. (P)—Arrest of a woman employee in the army technical bureau and discovery of a manifesto by the pro-nazi Iron Guard attacking King Carol and the Jews precipitated a new campaign against that outlawed organization today.

Arrests in several sections of the country followed questioning of a woman, Marla Clucer, on whose person police said they found the manifesto critical of the king, and "Jewish and Free Mason domination of the government."

A dozen young men and women were seized in Craiova, heavily Austrian-populated city in Bukovina. A druggist there committed suicide when faced with arrest.

While 34 alleged communists were reported arrested at Gara, one of the chief cities of Bessarabia, in a general drive against all subversive elements, the Iron Guard was the principal object.

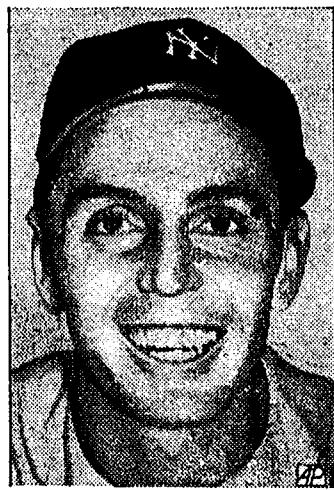

Stern measures of the late prime minister Armand Calinescu and a drastic purge following his assassination by nine alleged members of the Iron Guard Sept. 21 had supposedly almost wiped out the illegal movement.

CHAS. H. HARRISON'S CALF NAMED GRAND CHAMPION AT FAIR

HEADLINING FRIDAY'S PRO- GRAM WILL BE AUCTION OF BABY BEEF

By CHARLTON GUNTER
Daily Sun Staff.

A sleek 775-pound Hereford calf born in January of this year and owned by Charles Henry Harrison of Corsicana was selected as the grand champion of the 1939 Boys' Baby Beef Show on Thursday morning in one of the outstanding features of the second annual Corsicana Livestock and Agricultural Show.

An entry by Horace Holley of Rose was selected as reserve champion.

Several hundred spectators occupied seats in the huge rodeo arena while W. J. Largent, Merkle cattle breeder, judged the 156 animals allowed in the three classes of competition. Also in attendance was a group of more than forty students from Arp, Smith county, who have been visiting the Corsicana exhibit to compare efforts. They were the guests of President J. N. Edens of the fair association.

Auction Friday.

Headlining Friday's program will be the auction of the boys' calves which is expected to bring a number of major purchasers from out-of-town. Several buyers were present Thursday looking over the future steaks and roasts.

Another visitor during the latest was W. E. Barnes, beef specialist of the Texas A. and M. College Extension Service. The sale will begin in the arena at 9 o'clock Friday morning.

All of the boys' entries will be exhibited at 7:30 Thursday evening in the rodeo arena before the crowd gathered for the evening performance.

Fair officials also announced the trench-silk contest would be concluded Friday morning, and contestants would be required to register before 9 a. m.

Hitter left for Warsaw this morning to review a triumphal parade by Nazi troops, according to informed sources.

His standard continued to fly from the chancellor—usually a sign of his presence in Berlin—but these sources said that merely meant he planned to be back before the day was over.

Tomorrow the führer is scheduled to speak for one and three-fourths hours.

SEVERAL TERRACE DEMONSTRATIONS IN NAVARRO COUNTY

ACTIVITY PROVES PROPER TERRACE MAINTENANCE EFFECTIVE, ECONOMICAL

Several terrace maintenance demonstrations in Navarro county within the past few weeks have proven that proper terrace maintenance is both effective and economical. These demonstrations were held on farms cooperative with the soil conservation service and many visiting farmers agreed that with ordinary breaking plows the carrying capacity of the water channel and the effective height of the terrace embankment can be maintained as constructed with normal farming operations.

A surprisingly large percentage of the terraces in this area that have been in use for 5 years or less are no longer effective because the continued practice of one crop farming and tillage up and down the slopes have reduced the water carrying capacity of the terrace channel until frequent overtopping has occurred. Terracing has aggravated rather than alleviated erosion.

Local farmers have indicated that terraces must be supported by adequate tillage and cropping practices in order to protect their investment in the original construction; that construction is only the initial stage and success depends on whether they are properly maintained.

Contour Farming

One of the most desirable tillage practices for terraced land is contour farming—the plowing and

planting of crops parallel to the terraces. This produces a series of miniature depressions and ridges between terraces and these aid in moisture conservation and erosion control. Operating tillage equipment parallel to the terraces, particularly equipment that penetrates the soil, also results in minimum damage to the terrace ridge and channel. Under no condition is it desirable to use a harrow on the terrace ridge, according to

technicians of the soil conservation service.

Results of demonstrations held recently by the soil conservation service on the Joe Baker farm, two miles west of Drane; the R. M. Hudnall farm, one mile south of Chatfield, and the F. M. Copeland farm, one mile east of Purley, using a breaking plow, is rather conclusive evidence of the good that can be done. An increase of 53 per cent water carrying capacity was attained by breaking a land (No. 1) which extended from the top of the terrace ridge to the terrace channel and an equal distance above the terrace channel; then breaking a land (No. 2) from the upper edge of the first land to the top of the ridge of the next terrace.

Good terracing can usually be maintained with little or no additional maintenance work if contour tillage and proper methods of plowing are practiced.—J. W. Gibbs.

FOUR NEW LINES FORD AUTOMOBILES BEEN ANNOUNCED

THREE NEW CREATIONS ARE PLACED ON DISPLAY BY LOCAL DEALERS

Four new lines of Ford automobile creations for 1940 were announced yesterday and models of three of them were placed on display in the showrooms of Calkins and Dublin, Inc. A cordial invitation was extended the general public to visit the exhibit and inspect the new cars.

Those models placed on display included the Ford V-8 the DeLuxe and the Mercury. The Lincoln Zephyr will be exhibited in the near future according to the Corsicana distributors.

Among the many improvements included in the Ford V-8, DeLuxe lines are gearshift on the steering post, new sealed-beam safety headlamps, new controlled ventilation systems, longer front springs, and torsion bar ride stabilizers.

Interiors of the cars have been re-designed and made even more comfortable through new designed seats and upholstery. Instrument panel group conveniently for driver.

In the Mercury line, a new interior treatment in blue and silver sets the style for the new creations. As in other lines, the 1940 models have steering post gearshift, ride stabilizers, safety headlamps, and in addition have been added a new straightline speedometer.

Additional insulation and soundproofing have been provided and greater vision had been insured through use of polished plate safety glass.

The Ford Zephyrs are larger and more powerful. Larger windows provide almost a fourth more vision, and the ventilation system has been altered.

New body models have been provided in almost every line.

Observance YMCA Founding 96 Years Ago Planned Here

An open house program will be held Tuesday, October 10, at the YMCA in observance of the founding of the YMCA movement 96 years ago.

The general public is invited to attend the program, which Miss Jewel Albritton will be in charge of, and inspect the two new projects recently completed in connection with the Y renovation.

The Young Men's Christian association was founded in London, England, nearly 100 years ago. It later spread to all parts of the world, and is today recognized as one of the world's greatest youth institutions.

CORSICANA LAUNDRY OWNER FEATURED IN TRADE MAGAZINE

The September, 1939, issue of the Texas Laundry News, official organ of the Texas Laundryowners Association, published at San Antonio, there appears a picture of E. D. McCarver under the heading of "Pioneers of the Laundry Industry," and the following comment concerning the popular Corsicana laundryman:

"D. McCarver who has operated the Corsicana Steam Laundry since he established it thirty-four years ago, is one of the pioneers of the laundry industry in the Southwest. He has played an important part in the development and progress of this industry, being one of the organizers of the Texas Laundryowners Association, which had its beginning in Corsicana thirty-three years ago. He is one of the oldest laundryowners in active business in the state."

"Starting with the McDougall Laundry at the age of 14, Mr. McCarver grew up with the business, witnessing or taking part in every phase of its development. He opened his first laundry in Gainesville over forty years ago. Following this he went to Corsicana where he opened the Corsicana Steam Laundry. He also owned and operated the Denton Laundry at Denton for several years."

"During 1935 he served on the board of directors of Texas Laundryowners Association."

FUNERAL RITES ARE HELD FOR POPULAR CORSICANA TEACHER

Funeral services for Miss Ruby Gallahar, local teacher, who died at the Navaro Clinic Monday night, were held Wednesday morning at 9 o'clock from the chapel of the Sutherland-McCann Memorial Home. The rites were conducted by Rev. George MacInnes, pastor of the Third Avenue Presbyterian church. Interment was made in the Clifton cemetery. The family resided at Clifton a number of years ago before moving to Corsicana. Miss Gallahar had been a well known and popular teacher in the local schools for the past 15 years. She was a member of the Sam Houston faculty at the time of her death.

Surviving are her father, John Gallahar, Corsicana; three sisters, Misses Edna and Alpha Gallahar, and Mrs. Josephine Harrison, all of Corsicana, and two brothers, Travis Gallahar, Hobart, Okla., and Lee Gallahar, Roth, Okla.

Pallbearers were Judge C. E. McWilliams, Lester Pittman, Norris W. Lovett, Roy Harrison, LeGrand Morton, Robert Stell, Jr., L. G. Molina, W. S. Guthrie and F. W. Smith.

Honorary pallbearers were friends of the family.

Kerens Bobcats to Play Mildred Team Friday Afternoon

KERENS, Oct. 4.—(Spl.)—Going into their third game of the season, the Championship Kerens Bobcats encountered the Mildred eleven at Mildred Friday afternoon at 3 o'clock. Coaches Henry George Smith of Kerens and L. F. Adams of Mildred have their charges set for a district 21-B tilt.

Kerens smothered Edgewood 31-0 in her first game and dropped the second 14-8 to Waxahachie last week after outplaying the Indians in a ractically every department of the game.

Coach Smith has not announced his starting lineup for Kerens, but he has used co-captain Jimmy Shelton, E. B. Lancaster, Hobson Trammell and Dudley Gray to open the two previous games. The line will probably be composed of Crawford and Duncan, Eddie Goforth, Ragland, or the Baxter tackles; Miller and Ivey, guards; and Graves, center.

Co-captains Dade Goforth and Jimmy Shelton, Dwain Crawford and Virgil Lee Graves were particularly outstanding in the Waxahachie game.

TWO THANKSGIVINGS AND BUMPER TURKEY CROP SOUNDS GOOD

SALT LAKE CITY, Oct. 4.—(P)—Drumstick gnawing is going to be popular in the United States this autumn!

Turkey experts sounded this proclamation today and listed two reasons:

Some states will have two Thanksgiving Days—one federal, one state.

The 1939 turkey production is the largest on record—and the birds are selling at prices approximately the same as those asked for first grade hamburger.

Directors of the Northwestern Turkey Growers Association, which represents thousands of growers in 11 states, invited the nation's housewives to "try a wing," not only on a holiday, but any time, because, they emphasized, the gangling birds are the one meat that failed to benefit from the recent war-time price hike.

Directors, in annual meeting, said they expected a newspaper advertising campaign to put turkey on many tables during next month instead of the usual ones.

President Roosevelt has indicated he would proclaim Thanksgiving Day for Nov. 23, but many states have clung to the traditional last Thursday of November, this year the 30th. Hence some commonwealths will observe both days.

In the nations' turkey production estimated at \$1,967,000, some 22 per cent larger than last year, officials said few growers would make a "fair" profit.

Furniture Store Damaged By Fire

Fire of undetermined origin damaged the second floor of the building on North Beaton street occupied by the Pollard Furniture Company to an estimated extent of \$4,250 about 2:45 Wednesday morning.

Howard Elvins, hose captain, suffered a dislocated left shoulder and a back injury when he was driven back from a window by smoke and fire, causing him to slip on an iron stairway.

Fire department officials said the major portion of the damage was confined to the upper floor of the building. Loss to the contents of the building was estimated at \$750, and at \$3500 on the building, which was owned by the Miss Lizzie McElwee estate.

Firemen were called to the parkway adjoining Moore's warehouse about 1:30 to extinguish a smoldering fire in a bale of cotton.

J. S. Summers wishes to express his thanks to the people for the cotton picking they gave him, due to his illness.

Cement Concerns To Pay \$400,000 State Penalties

AUSTIN, Oct. 4.—(P)—A settlement among four major cement manufacturing companies in Texas agreed to pay \$400,000 in penalties and court costs and be enjoined from creating or becoming a part of any combination for the purpose of restricting competition in the sale or manufacture of their product, was announced today by Attorney General Gerald C. Mann in the state's anti-trust suit against the defendants.

KIDDIE PLAY OR PARTY STYLE

PATTERN 4277

by Anne Adams

Play-girl or party-girl—here's a cunning style for both sides of your small daughter's life. Anne Adams' Pattern 4277 is simple enough for even a "first-try" seamstress. Isn't the perky, squared-off bodice panel a novel touch? Make one dress in gay plaid or checks; top it with a collar, perhaps in contrast, and have long, full sleeves. Then make a buttery-gay party style of daintier fabric—use bias binding and bows for a colorful touch. The round neck of the collarless version and the sleeves are sweet trimmed with bows and lace.

Pattern 4277 is available in children sizes 2, 4, 6, 8 and 10. Size 8, long sleeve version, takes 15-8 version, 54 inch fabric; short sleeve version, 21-8 yards, 36 inch fabric and 1-5-8 yards lace edging.

Send fifteen cents (15¢) in coins for this Anne Adams pattern. Write plainly size, name, address and style number.

Your clothes express your personality so let them be distinctive! Get Anne Adams' new pattern book and choose from the many smart styles shown for every age, type and purpose. There are "big afternoon" and "little evening" styles and vice-versa. You'll find all-line frocks for the gay forte—smart home and street wear—Fifth Avenue accessories—wardrobes for co-eds and toddler! Plus winter vacation clothes, budget wardrobe, and "gifted" holiday looks! Order your copy now! Book fifteen cents. Pattern fifteen cents. Book and pattern together, twenty-five cents.

for either peace or war" and that the choice is up to Great Britain.

Newspapers prominently displayed an alleged order of the British admiralty to British merchant ships to "ram every German submarine."

That Germany is not in a hurry to start operations in the west was indicated by this morning's high army command communiqué which told yesterday's war story in two sentences.

In the west, it said, "there was only minor artillery and scouting plane activity."

In the east, it reported continuation of "the cleansing which began yesterday in the region of the Vistula of shattered remnants of Polish troops."

BERLIN, Oct. 5.—(P)—DNE, official German news agency, said in a communiqué today that during September German fighting planes and anti-aircraft batteries shot down 40 French and 27 British planes on the western front.

DNE said German pursuit planes accounted for 23 enemy planes on Sept. 30, which was marked by all fighting planes shot down the day. German losses that day were said to have been five planes.

The agency said that of one group of 37 French-British planes which flew over the West wall eight were destroyed and the rest forced to turn back.

MOSCOW, Oct. 5.—(P)—Soviet Russia and Germany have signed an additional protocol to their friendship and border treaty, fixing a precise frontier between them in conquered and partitioned Poland.

The protocol was signed yesterday morning.

It was agreed that a mixed commission would begin work October 9 placing frontier stones along the boundary of the Nazi and communist "spheres of interest" in conquered Poland.

It is the utmost danger in war times of emotions overwhelming common sense. The most regrettable thing that could happen to us would be building up of a party in the United States. But the premises of the ideas you mention is wrong.

To Control Seas.

"The war is only a month old. But the major factors are already emerging. The British and French can, and will, control the seven seas despite submarines and aeroplanes, and can sit there until their enemies are exhausted.

"By their sea power the allies can protect England and all the outlying possessions of both empires from invasion. Their men power can defend France unless they blunder into taking wild adventures in military offensives and exhaust their man power.

"Aerial warfare may be destructive, but that works both ways and, so far as all experience goes, is not conclusive of any war.

"German shipping is already driven off the seven seas in 60 days. Italy would have the same fate if she joined in, which at the present time appears also improbable.

"The submarine may be troublesome, but there has been great progress in methods of detecting submarines since the last war, and this type of warfare is less dangerous than formerly.

TEXAS FARMERS AND RANCHMEN PLAN GET THEIR FULL QUOTA

COLLEGE STATION, Oct. 3.—(Spl.)—Texas farmers and ranchmen who last year let \$3,47,310 off their fingers by not earning their maximum soil-building and range-building allowances are not going to make the same mistake twice.

With only three months to go before the deadline for earning 1939 allowances under the Agricultural Conservation Program a maximum of \$12,694,000 is available as payment for soil-building and range-building work in the state. E. N. Holmgren, state AAA administrator, has announced.

Farmers in the state last year let the ranchmen run rings around them when it came to taking advantage of the assistance offered by the government in soil building work.

In 1938 the maximum soil-building allowance for all farms in the state was \$6,617,708, but the farmers earned only \$3,675,271, or 55 percent. The maximum for 1939 is \$6,205,000 and a much larger percentage is expected to be earned.

For range-building in 1938 the maximum which could be earned in the state was \$6,155,748, of which \$5,650,673 was earned, the ranchmen thus collecting more than 91 per cent of the maximum allowance.

During the current year the maximum of \$6,489,000 available with earnings expected to pass 95 per cent of that amount.

Soil-building allowances for farms are figured on the difference between the total cultivated acreage and the acreage devoted to cotton, wheat and general crops with each acre worth 50 cents in the allowance. In addition, 2 cents per acre of non-crop open pasture land is allowed and \$1 is added for every animal unit the pasture is normally capable of grazing.

Range-building allowances are figured at 2 cents for each acre of range land plus \$1 for each animal unit of grazing capacity. These allowances can be earned by the operator by doing approved soil-building and range-building, such as terracing, contour ridging, construction of tanks and reservoirs and other practices with specified amounts of work counting as one unit and earning \$1.50. Unless the work is done, no payments are made.

Notice.

There will be a Townsend meeting at 404 South Fourteenth street Friday, October 6, and everybody is cordially invited to come and see and hear. We will try to entertain you, so you will want to come back.

WORLD SERIES

(Continued From Page One) One record home as Charley Keller lofted a tremendous fly that scooted off Wally Berger's glove for another double. Joe Di Maggio beat out an infield hit and Bill Dickey drove Keller home with a sharp single to right field.

YANKEE STADIUM, New York, Oct. 5.—(P)—Apparently satisfied one victory by the World Champion Yankees proved as much as four could, fans were slow in appearing today for the second game of baseball's greatest circus, the World Series, between New York and the Cincinnati Reds.

Although the weather was ideal, warm and sunny, only a few more than 5,000 spectators were in the stand an hour after the gates opened.

The diamond was uncovered and nicely manicured and appeared to be fully dried in contrast to the soft footing it afforded for the first game, which the three-times world champions captured 2 to 1 with a run in the ninth inning.

The starting pitchers for this second session were to be Bucky Walters for the Reds and Monte Pearson for the Yanks.

Walters, a converted infielder,

who had been the swarthy rookie whose ninthinning triple helped break up the first game of the series, was the first player to slam a pitch out of the playing field, just as he was yesterday.

The Bombers continued the game barrage, Bill Dickey, Joe Gordon, Rosar, George Selkirk and others driving ball after ball over the low walls in short left and right fields.

Most of the exhibition was missed by the Reds who straggled on the field late.

Wally Berger was the first Red in batting practice to loft a ball into the grandstands.

Manager Bill McKechnie of the Cincinnati Reds, said he would stand pat on the line-up that played yesterday.

Play By Play

By SID FEDER
YANKEE STADIUM, New York, Oct. 5.—(P)—Once up and three to go, the Yankees met the Cincinnati Reds in the second game of the 1939 world series today in warm, sunny, but slightly hazy weather.

A crowd estimated at more than 50,000 fans was on hand at game time.

The Yanks came back today with their No. 2 right-hander, curve-baller Monte Pearson, he was opposed by the National league's leading winner during the 1939 season, Bucky Walters.

As a result of their victory yesterday, the Yankees were 1 to 5 favorites to retain their title and 4 to 1 to do it in four straight games.

Except for the pitchers, there were no changes in either line-up.

After today's game, the two clubs shift to Cincinnati for the third, fourth, and, if necessary, fifth games, beginning Saturday.

Following is the play-by-play description of the game:

WAR BRIEFS

Relatives Re-Established.

BUDAPEST, Oct. 5.—(P)—Hungary, whose government has maintained policy of watchful silence with European war at the border, has completed re-establishment of diplomatic relations with Soviet Russia.

The relations were broken last February 24 when Hungary signed the anti-communist pact (joining Germany, Italy, Japan and Spain.)

Rumors of Espionage.

BERNE, Switzerland, Oct. 5.—(P)—Rumors of espionage have reached such proportions throughout Switzerland that the high command today issued a communiqué warning that "the military authorities will act with all the severity

of the law against transmission of rumors without foundation."

The communiqué cited specifically the rumor of the arrest of a high Swiss officer on charges of espionage, which it said was entirely false.

PUBLIC SERVICE CAREER

Improved service is rapidly becoming a major issue to citizens everywhere. The federal Hatch bill is expected to have many successors in the states in the next few years.

"Events are seldom the results of single or simple causes," observes President Winfield G. Leutner of Western Reserve University. "Such stirring slogans as 'war to end wars' and 'war to make the world safe for democracy' and 'war to destroy totalitarianism' are all over-simplifications for effect."

"We cannot, Buddha-like, hold intellectually or emotionally aloof from world problems—for the current war. But to be truly 'internationally minded' in the present setting means that our intellectual processes, our reason, must be kept in the saddle, in control of our emotions of hate and fear and vengeance."

SEA POWER

It would be easy for Americans to underestimate the effectiveness of the seemingly mild campaign conducted so far by the French and British on the western front. Hitler has won what he wanted in Poland, and so has Stalin, and Germany and Russia are both strong, but there is a great countervailing factor.

Walter Lippman points out this factor very clearly in the New York Herald Tribune. What happens on the western front where the British and French face the Germans may be less important than what happens on the sea.

"The victories of sea power are rarely spectacular," he writes; "the conquest of Poland has been more dramatic than the victory of the British navy in driving Germany from the sea. But unless all experience is to be set at naught, every victory on land is indecisive as against a nation which retains command of the sea. In the end the land-locked power gives way to the sea power."

PROFITABLE WATER-SHED

Thirty-nine years ago the city of Seattle, Wash., bought itself a community forest of 62,000 acres. The purpose was to protect its watershed. That has been done, and a good deal began.

Today, the United States Forest Service reports the investment is paying a net return of \$2.25 an acre each year. Sale of wood products for some time has enabled the city to pay off the original forest debt and take care of all operating expenses. Now it makes a profit.

Seattle's forest experience is interesting. There might be more non-competitive, money-making, municipal projects in the country today if citizens wished.

War is a great leveler. With Edward and Wallis back in London, England's supreme problem is no longer whether Wallis shall be addressed as "Your Royal Highness."

From the news pictures, Americans might get the idea that the chief occupation abroad is piling up sandbags.

"INSIDE OF RUSSIA," BY JOSEPH STALIN**SENSIBLE SHOES**

Women have gone through several years when they would "wear high-heeled shoes if it killed 'em," as it sometimes did—when they turned their heels or slipped on a street crossing or started for a country walk in their city shoes. And it is incredible how far this curious fad has gone. Away up in the mountains and in the backwoods villages you will find girls hobbling around on four-inch heels having no logical relation to their environment or anatomy.

But a change is coming. A style writer says "The No. 1 glamor item of the American woman's wardrobe" now is to be flat-heeled shoes. The soles may be an inch thick, but the height of the ball and heel of the foot above the ground will have some structural relationship.

And the footwear, except on very special occasions for evening wear, is not going to pinch, says the expert. Shoes will feel as comfortable as bedroom slippers and yet have the sturdiness of a hunting boot. In this connection, too, there is dawning a new frankness. The American woman, we are told, has got so far along the path of evolution that "she no longer gives a darn who knows the size of her shoes."

All this sounds somewhat exaggerated, but skeptical males are willing to be convinced. The inch-thick sole, though, sounds ominous. It will make gumshoeing too easy.

NORMAL COUNTRY

One country, at least, is not excited or upset. That is our good neighbor Canada.

A current announcement from Canada steamship lines on the Great Lakes says that no change has been made in travel regulations. No passports are required and the immigration rules are the same as they have been for years. For Americans arriving either by land or water, the door is wide open as usual. It is pleasant to have such a spot next door.

It's all in the point of view. To Hitler, Europe is just a set of building blocks.

American travel now will be domestic for a while—between the house and the job.

Anyway there's plenty of sugar in America. Whatever happens, the candy stores and soda fountains can keep going.

MOTHER GRABS A HAMMER

Men will be interested in a new feminist movement in Virginia, the purpose of which is to make women the handymen around their homes. Things are buzzing in and about Blackburg, Montgomery County, home of the Virginia Polytechnic Institute. With the help of V. P. I. experts and the county home demonstration agents, the ladies are producing "home-makers' tool boxes" and acquiring tools and fixing all sorts of things that their men "never seem to get around to."

As a result, it is reported that the women are not only getting a lot of things done but are interesting their menfolk in the procedure.

The men would be interested! Regardless of most men's natural tendency to postpone and evade household tasks, nothing alarms them more than to discover, from noises around the place, that some woman has got hold of a hammer. And when Mother starts wielding a screwdriver, a pair of pliers and a saw, Father expects the walls of Jericho to fall down.

MRS. CORA B. POOLE
BURIED WEDNESDAY
DRESDEN CEMETERY

Mrs. Cora B. Poole, aged 82 years, died at the family residence, 1032 West Twelfth and One-Half Avenue, Tuesday night at 10 o'clock after an illness of more than a year.

Funeral services were held Wednesday afternoon at 3 o'clock from the chapel of the Corley Funeral Home. The rites were conducted by Rev. B. B. Byrd, pastor of the Eleventh Avenue Methodist church. Interment was made in the Dresden cemetery.

Surviving are her husband, Ed Poole, Corsicana; two sons, Howard Poole, Franklin, La.; and Ralph Poole, Corsicana; two daughters, Mrs. A. Berryhill and Miss Wilma Jo Poole, both of Corsicana; two brothers, Homer J. Thomas and John H. Thomas, both of Corsicana; three sisters, Mrs. J. C. Cheek and Mrs. Jack Russell, both of Corsicana, and Mrs. Ray Ponder, Dawson, and two grandchildren.

Pallbearers were J. C. Cheek, Claude Poole, Jack Russell, Guy Green, Arthur Adams and H. D. Beauchamp.

Navarro County Boy Has Joined Marines

Among the 99 young men accepted for service in the United States Marine Corps during September at the Dallas recruiting headquarters was James E. Hinkle, Navarro county boy and the son of Mrs. Edwyna Hinkle of Barry. Young Hinkle graduated from the Emhouse high school prior to joining the Marines.

He left Dallas the middle of last month for the Marine corps base, San Diego, California, where he will receive his initial training for duty and fit himself for service with Uncle Sam's soldiers of the sea either ashore or afloat.

It begins to look as if we're doomed to make money out of the war-at-least for a while.

GETTING RID OF BAG WORM IS JOB FOR HAND PICKING

COLLEGE STATION, Oct. 3.—(Spl.)—Since poisoning bag worms on shade trees is not effective this late in the year, the best thing to do is to hand pick the bags, says R. R. Roberts, entomologist for the A. and M. College Extension Service.

Before the bag worm can be successfully combated, one must know something of its life history. By fall the female insect has entirely shriveled, leaving nothing but a mass of eggs within the bag. These eggs, the entomologist says, withstand the winter and hatch the following spring producing a great number of small worms, each of which builds a new nest and so repeats the cycle.

Hand picking the nests in fall or winter will remove the eggs and is practical on deciduous trees, those which lose their leaves after frost. These nests should not be destroyed but placed in boxes covered with screen or placed in a pile some distance from the trees.

Mr. Roberts points out that a number of parasitic insects which are present in the nests destroy the worm. For that reason, placing the nests in cages of plastic allows these small beneficial insects to escape so that they will destroy any bag worms which may have been overlooked and would ordinarily hatch in the spring.

"Care should be taken that the collected nests be removed some distance from the trees, so that the young worms which hatch will be unable to crawl to the trees before starving," he warns. Boxes or barrels in which the collected nests are placed should be protected from the rain to prevent drowning of the parasites.

FUNERAL SERVICES
O. B. McCULLOUGH
HERE ON TUESDAY

Funeral services for Othel Berry McCullough, aged 28 years, former Corsicanian, who died in Dallas Sunday night after a lingering illness, were held Tuesday afternoon at 2 o'clock from the chapel of the Sutherland-McCullough Funeral Home. Interment was made in the Bazzette cemetery. The rites were conducted by Rev. E. T. Miller, pastor of the First Baptist church. McCullough formerly served in the U. S. Navy.

Surviving are his mother, Mrs. Marion Lonon McCullough, Corsicanian; two brothers, Audry McCullough, Olney, Texas, and Bradford McCullough, Houston; and two sisters, Mrs. R. L. McGlasson and Mrs. E. J. Jackson both of Corsicanian.

Pallbearers were Homer Humphries, Bill Hutson, Vernon Flanagan, John Burkes, Tom Agdgate and Guy Reagan.

Two Small Children Burned to Death

SNYDER, Oct. 3.—(Spl.)—Charles Edward Pevhouse, 4, and his 1-year-old brother, Thomas Gene, burned to death when fire destroyed a small tenant house east of here yesterday.

A group of men looked on unaware that the children were in the building.

Their parents, Mr. and Mrs. M. E. Pevhouse, were in a field about a mile away when the fire was discovered.

Nickels Paid For Baby—That's Name

TROUTVILLE, Va., Oct. 3.—(Spl.)—Dr. W. N. Breckenridge delivered a youngster to the R. L. Kesslers.

As the physician prepared to leave, Kessels counted out 50 nickels in payment to him. "Nickles would be a good name for the baby," suggested the doctor. The Kesslers agreed—and so it is.

Going to Austin.

Doyle Pevhouse, editorial representative in the Texas legislature from Hill and Navarro counties, will leave Corsicana Wednesday for Austin where he will be engaged on official business until November 1.

Will Preside Over Dallas Meeting For Crippled Children

Paul H. King, (above), Detroit, will preside at the joint annual convention of the International and National Societies for Crippled Children which opens in Dallas, October 22nd. This convention, one of the world's greatest humanitarian meetings of the year, will bring to Texas a thousand physicians, surgeons and laymen who are devoting their careers toward aiding crippled children in regain health and take useful places in life.

WORTHAM SCHOOLS TO HOLD CARNIVAL ON NEXT WEEKEND

WORTHAM, Oct. 3.—(Spl.)—The Wortham Public Schools will hold a Harvest Festival beginning on the 12th of October, and continuing until the 14th. Among the many attractions to be found at the fair will be a parade at 10 o'clock on Thursday afternoon; school exhibits will be on display from 3 p.m. until 5 p.m.; this will include all types of agriculture and home economics displays; there will be a program beginning at 7 which will include the selecting of a most popular girl at the Carnival. Speeches and band music will consume the remainder of program which will officially end at 8. From 8 on, the midway will be open and will display many attractions that are different. The carnival consists of a ferris wheel, a thriller, two kiddie rides, and many other attractions.

During Friday, exhibits of all kinds will be on display throughout the day. From 8 until 9 a conference football game will be played between Bremond and Wortham on the local field. Saturday will also be a great day with lots of exhibits and carnival attractions. Everyone within the surrounding territory is invited to be present and take part in the fun and merry-making.

**BLOOMING GROVE
SCHOOL NEWS OF
GENERAL INTEREST**

BLOOMING GROVE, Oct. 5.—(Spl.)—School was dismissed last Thursday and Friday in co-operation with the sixteenth annual Blooming Grove Fair. The Senior Class car won first place as the best decorated in the parade. Second place went to the Junior Class while the P.T.A. car won third place. The parade this year was unusually good and much larger than previous ones.

The Blooming Grove Lions played one of their best ball games in holding the Hubbard Trojans to a 7-0 margin. The Hubbard team was much heavier than the local boys and found the wet field much to their advantage. The game was well played by both teams and victory remained in doubt until the finalinning. Elton McCleire, H. C. Smithen, Kenneth Bryant, Jimmie Doyle, Carroll, and Robert Sheppard stood out in the game for the Lions. The next game will be played with the Hillsboro B team Thursday afternoon at 3:15 here at Blooming Grove.

The Pee Wee team coached by W. A. Sloan won a 14-0 victory over the Malakoff team here last Saturday. The home boys made their points early in the game and the remainder of the game found both sides playing good ball and neither side able to score. These games are always enjoyed—win, lose or draw. The school issues a special invitation to all who would care to see them.

The new building being added to the Blooming Grove school is nearing completion at this time. Work was started on Monday and will probably be completed the early part of this next week. The building will have two large rooms 20x28 and will amply take care of the larger classes of the school. Only one room will be needed at the present time and the other will be held in reserve.

The first issue of "The Bloom," the local school paper, will come out on Friday of this week. This year the paper will be issued each three weeks, there being twelve copies in all as against six copies for last year. Miss Maxine Mitchell is the official sponsor for the paper. She will be assisted by Miss Mary Ellen Douglas. Each class and the student council will be responsible for two issues during the year.

The Blooming Grove High school attended the Corsicana fair parade on Tuesday morning of this week. The pep squad marched as a unit in the parade. The four buses were also entered. The students

THOUSANDS HERE FOR SPECTACULAR PARADE OPENING FAIR, RODEO

ALL RECORDS BROKEN AS SECOND ANNUAL EXHIBITION GETS UNDER WAY

By CHARLTON GUNTER
Daily Sun Staff.

Setting a new high mark for color, interest and length the inaugural parade of the second annual Corsicana Livestock and Agricultural Show erased the previous records established last year and set the pace for the new exposition which opened its doors yesterday after the search for a five day rain.

Citizens of Navarro and surrounding counties co-operated magnificently with local residents and fair officials in staging a wonderful exhibition of color and spirit in which seven-year-olds vied with seventy-year-olds and older to make the procession an outstanding success.

Early Tuesday morning fair officials made a thorough survey of the exhibits and entertainment features provided for the second annual show in the permanent plant and pronounced everything ready. Exhibit buildings and tents were filled to capacity, dozens of rodeo performers were on hand and ready for action, and everything was set on the midway, all combining to break the records set last season.

Judging started Tuesday in the women's and girls' textile and canning sections, in the art department and in the general agriculture section.

Crowds Arrived Early.

Streams of cars and other vehicles loaded with people began to arrive in Corsicana shortly after sunrise Tuesday morning and long before 9 o'clock parking space within a reasonable distance of the business section was not to be found and many had to park their cars out as far as Fourteenth and Fifteenth streets and then walk to places of vantage along the parade route.

Many observers indicated it was probably the greatest crowd ever assembled in Corsicana for a parade or any other occasion, and some estimated the attendance at a minimum of 25,000.

Uniformed national guardmen halted traffic in all directions along the parade route at 10:15 and no doubleparking was allowed but many people lined the sidewalks to watch the efficient work for the marching units remained.

The extended procession moved out promptly at the appointed time, and for the next fifty minutes there was a constant stream of entries past the huge throngs who watched and cheered various groups.

City Patrolman Kelsey Blakeney and five State Highway patrolmen formed the advance guard, and the main procession was headed by Fred M. Allison, Jr., Fred M. Allison, Sr., and Miss Mary John Davis, superbly mounted and with saddles and other riding equipment heavily covered with silver and jewels.

Immediately behind these three riders came officials of the fair, city and county governments in 1939 model automobiles. Quickly followed J. M. Henry, in a car of ancient vintage that drew hearty applause along the entire parade route.

Official Fair Band.

The first main division of the parade was headed by the Sam Houston State Teachers' College Beartak Band in their colorful golden uniforms. In addition to novelty drills this band supplied added color to the occasion by their marching songs, and their corps of comely drum majors and majorettes caught plenty of eyes. This band is the official fair musical organization and will supply the music for the nightly rodeo performances.

After a group of clowns, the national and state colors were borne along by F. H. Harvey, Jr., and W. W. (Pete) O'Daniel, followed by W. E. McKinney, rodeo chairman, Miss Virginia Sue Kent, Corsicana sponsor, Mrs. Ed Ritterbacher, and more than twenty sponsors from other communities. More than seventy riders appeared in this section alone.

Section two of the parade commanded by Fred V. Blucher was

headed by a sound truck and the Mexia red-costumed Blackjacks, followed by a unit from Westminster College at Tehuacana, officials of the Mexia Chamber of Commerce, and representatives of the Limestone County Fair and Rodeo.

Many Decorated Cars.

Following in order were the decorated cars and floats of the Navarro County Red Cross chapter, Southern Ice Company, Mack's Tavern, Little Nursery, Wolf Brand Chili, Bewley Mills, Dr. Pepper Bottling Company, Magnolia Petroleum Company's winged horse float, Corsicana Beautician's club, Pan-American Club, Huntsville Prison Rodeo, Camp Fire Girls' float on which appeared a replica of Camp Wanita.

The colorful Tyler High School band attired in blue and white uniforms headed the second unit of this section, and were followed by entries from the Kraft Phoenix corporation, Beaton Cigar Shop, White Way Dairy, Allis Chalmers and John Deere farming equipment, the Navarro County Home Demonstration Council, Commercial Coffee Shop, Navarro Lumber company, Rainbow Ice Cream company (four trucks), Stop-and-Shop Market, Ford Ferguson system tractors and equipment, and three trucks of the Navarro Rural Electric Co-operative Inc.

Another unit of this section headed by the Hillsboro High School band, followed by Tom Donaldson and his trick horse "Cry Baby," Red Chain feed entry, Cleve Floral company, Navarro County Girls 4-H clubs, Palace Theater, Tenth Street Garage, Texas Championship Rodeo, Corsicana Nursery Company, Price Holloway, Lone Star Gas Company, Price Oil Corporation, Western States Shows, Bule Implement company with two trucks and three tractors, Young's Dry Goods, Magnolia's Model-T, Texaco Corporation trucks, Navarro Commercial College, Joe D. Hughes Stock Farm.

A truck by CCC veterans of the Corsicana camp closed the section, Cowboy Band.

The fifth section of the parade was headed by the Corsicana Cowboys Band headed by Drum Major Neal Owen and directed by Don Allen, and numbered thirty-six members. Uniformed cooks representing the Darrell camp, Waco's section of mounted entries came then numbering sixteen, in addition to their two sponsors in the first section.

Three horse-drawn vehicles including an old mail wagon were entered by the Corsicana Theaters and were followed by Arthur Wareling driving an old fashioned covered wagon; this was followed by a "hum-me-tight" buggy drawn by a team of horses.

Then followed 182 horseback riders in column of two's bringing the total of riders in the entire procession over the 300 mark, one of the new records set for the day. Seven of the riders were from Mexia and others from all parts of Navarro and adjoining sections.

A truck load of the rodeo horses closed this section.

The final section was filled by colored citizens and was headed by two cars of officials of the negro chamber of commerce, followed by a band mounted on a truck. Next came entries of McWay-Carson, Jackson high school, colored primary schools, Negro Red Cross, a group of bicycle riders, Pillows Barber Shop, Washington Beauty Shop, Washington grade school, colored tailors, an entry expressing need for a negro county farm agent, and Jones Wood Yard entry.

Within a short time after the parade entries completed their tour, the road to the fairgrounds was lined with cars of people who quickly filled the grounds and exhibit halls near capacity.

Rodeo Tonight.

The first session of the Texas Championship Rodeo will be presented at 8 o'clock Tuesday night, preceded by a concert and drill by the Beartak band of Huntsville.

Another parade through the business section was scheduled Tuesday afternoon by a delegation of 150 or more Dallas Chamber of Commerce representatives headed by the seventy-piece Highland Park High School Band. The Dallasites were scheduled, about mid-afternoon and will lunch in Corsicana and attend the night session of the fair.

Military Section.

The fourth section of the parade was headed by Captain Festus A. Pierce, and the first entry was a decorated float by the American Legion, entitled "Memories of 1918" and showing a uniformed soldier surrounded by a field of Poppies. Next came the Johnson-Wiggins Post No. 22 American Legion Drum and Bugle Corps, fol-

lowed by Squirrel Shooter Bill Lee, Dawson completed the county section with four decorated cars.

A decorated float was presented by boxing classes of the Corsicana YMCA, followed by entries of the Friendship club, officials of Boys' and men and members of the city council of that organization, members of the Gra-Y, the Senior Hi-Y of the State Home, the Corsicana Hi-Y Club and Rodeo Patrol, and decorated entries of Franklin Stores and Brance Manufacturing company.

Other exhibits in the main building included the art departments, the negro section, and educationals by various women's organizations, home demonstration clubs, etc. White's Chapel, adequate food supply and diet; Mt. Nebo, proper canning shelves; Stansell, emergency shelves; Emhouse, milk as a food; Oak Valley, home orchards; Powell, insect control in orchards and gardens; Bazzette, well arranged kitchens; Corbet, proper kitchen utensils and aids; Independence, quality fishes; Roane, control of poultry diseases and parasites; Jones Ranch, homemade lamb bread; Barry, proper poultry raising; Jones, a joint display by the home-making departments of Mildred, Emhouse and Barry on family recreation and home play. All of the exhibits have been attracting careful study from both urban and rural visitors.

Vying for top interest from the spectators have been the herds of Hereford stock cattle, and the scores of boys' baby bees that drew not only members of families and neighbors but many other interested spectators including veterans, cattlemen who had some complimentary words for the individual animals and also for the movement which originated in Navarro county for enlisting the interest of boys in livestock on a wholesale scale.

All divisions in the livestock section were filled to capacity, including the Herefords, dairy cattle, swine, sheep, and poultry units.

Visiting Newspersons, included in the large visiting newsmen present Wednesday were C. R. Peterson of the Texas Cattlemen of Fort Worth, Frank Parley of the Hereford Journal of Kansas City, J. Tom Mann of Holland's Magazine, J. E. Fee of the Dallas News from Waco.

Many of the spectators at the opening rodeo session recognized a familiar figure in the assistant arena director, who was active in keeping the various events moving. He was California Frank Hartley, director of last year's rodeo. His official announcement during the Tuesday night show that Mrs. Hesley would be presented on Wednesday's program in her rifle shooting act.

Officials also announced Wednesday two special program features on the midway for Thursday and Friday. The Lighter Doughboys of Fort Worth were scheduled to appear in downtown Corsicana about 4:30. Thursday an fair grounds proper at 7 p.m. It was announced that the Croker Sisters would be presented on Thursday and Friday evenings at 7:30 with their songs and string music.

Hereford Judging.

Included in the Hereford judging results completed near noon Wednesday were:

Declared German U-Boats Getting U. S. Supplies

PHILADELPHIA, Oct. 3.—(AP)—The Philadelphia Record said today the navy, N. B. I. and customs service were investigating reports that "unfriendly rumormongers" and "unscrupulous skippers of freighters" are carrying supplies to German submarines off the Atlantic coast.

The newspaper said federal authorities in Philadelphia commented only that they "have suspicions of some seamen."

Fuel oil food and drinking water, the Record said, have been furnished to U-boats by "smugglers" employed several weeks ago by Germans living in Philadelphia.

Auxiliary, and the Veterans of Foreign Wars, auxiliary.

The main military section was headed by a stationwagon containing the various national guard unit commanders and with George H. Kent, only known surviving artillery commander in the South.

President J. N. McDonald, commanding general Wednesday that an added feature would be presented during the Thursday night rodeo when all of the Hereford show cattle, all dairy cattle, and all of the boys' baby bees would be paraded in the rodeo arena for the view of the general public.

The second day of the fair was designated as "Texas Hereford Breeders Day," "Livestock Day," Henderson-Anderson County Day, and Kerens-Dawson Day.

President J. N. McDonald, commanding general Wednesday that an added feature would be presented during the Thursday night rodeo when all of the Hereford show cattle, all dairy cattle, and all of the boys' baby bees would be paraded in the rodeo arena for the view of the general public.

Judging Under Way.

Judging was reported completed in the women's and girls' club and open competition, but the results had not been compiled at noon.

Herefords and dairy cattle were being shown and judged during Wednesday morning in the rodeo arena during the day with John Burns of Fort Worth as the evaluator in the beef cattle section and A. L. Darnell of the department of dairy husbandry at the University of Texas.

SECOND BAZETTE OIL WELL IS UNDERGOING GAUGE WEDNESDAY

EXPECTED LOCATIONS FOR ADDITIONAL OPERATIONS BE MADE AT ONCE

The railroad commission official gauge of the Topaz Oil company-Buster-Calhoun company E. Tramel No. 2 producer was reported under way Wednesday afternoon, but was not expected to be completed until late Wednesday.

This second producer in the Bazette sector, northeast Navarro county, was in Tuesday morning while swabbing was in progress. The well was swabbed in from pay at 3,000-04 feet, total depth. Owners estimated the well was about like the first producer completed several weeks ago with a flow of 2,500 barrels from two-inch tubing opening. The commission is allowing 50 barrels per day, five days per week production on No. 1. No intimation has been heard in local oil circles as to what the allowable for No. 2 will be set.

The new producer is located 660 feet south of west of the first Tramel well.

Other locations are expected to be announced in the near future, although no official statements to that effect have been made. Considerable interest had been shown in the second test, and it was stated in local circles that other operators and companies in recent weeks were awaiting the outcome of this well before making any plans for development of properties in that immediate sector.

J. Harry Burke, Corsicana oil operator and city commissioner, has obtained a permit No. 1, S. E. Johnston, a new Navarro county test on a 40-acre tract in the J. P. Harden survey, located about one and one-half miles northeast of Powell. This is to be a shallow test and is in the locality where shallow production formerly was obtained.

CENSORS

(Continued From Page One) countries, like many others, have strict control of local newspapers but give full freedom to foreign correspondents.

Occasionally, all communications are cut temporarily in some countries. This happened in Rumania September 21 when Premier Calinescu was assassinated but not in time to prevent the news from going out promptly.

NEUTRALITY

(Continued From Page One) same position as I was before" on neutrality.

"I'm not committed to anybody on how I'll vote on the final issue," he explained. "I've been counseling against hurry and rush and I'm in a good position, because I voted against the neutrality bill in the first place. I am free to do as I please when the time comes."

Senator Overton followed Nye in the senate. Urging retention of the sole of armaments to European belligerents would constitute "armed intervention" on the part of America."

Carrying on the opposition argument to the administration's neutrality bill the Louisiana senator asserted:

"Let us not entertain the fond delusion that raising the embargo is not a step toward war. Soon the American dollar will be following American arms and the American flag and the American soldier will be following both to the battlefields of Europe."

"For my part," he declared, "I am unwilling to take a step that may, and probably will, lead us into a foreign war that will make widows of our wives, orphans of children, corpses of our young men and bankrupts of us all."

Overton said that "neutrality and national defense are the twin sisters of peace in America."

For No Invasion

"I fear no successful invasion of the United States by any foreign nation or combination of nations," he added. "I do not apprehend that we shall be subjected to foreign domination, but I do entertain the apprehension that in the event of our becoming engaged in another war we shall be saddled with a home-made dictatorship."

Overton, usually an administration supporter, argued that President Roosevelt and Secretary Hull had favored the arms embargo in the past.

"There is no inconsistency," he continued, "in permitting the export to belligerents of supplies for non-combatants that may likewise be used by combatants and otherwise diverted to the purpose of war--such as foodstuffs, timber, coal, copper, and so on--and placing an absolute embargo on weapons manufactured solely for destruction and human massacre."

Germany Might Retaliate

If the embargo were repealed, he said, Germany could "conceivably take the position that we could do little more, at present at least, to aid the forces arrayed against her."

"We could not destroy her fleet because it is bottled up. We could not destroy her merchant marine because England has driven it off the high seas. And public sentiment in America now is that we shall not send another expeditionary force to European battlefields."

"If Germany should retaliate by sinking our merchantmen plying between neutral ports and by firing upon the American flag, we shall be forced to declare open war against her."

Senator George (D-Ga) predicted today that senate authors of the administration's neutrality legislation would meet "soon" to consider proposed changes, including the demands of shipping interests for modification of the restrictions on shipping.

Would Split Bill

On the senate floor, meanwhile, Senator Tobe (R-N.H.) renewed his argument that the legislation should be returned to the foreign relations committee and split into two parts--one repealing the arms embargo and the other embodying restrictions on American shipping and travel.

Tobey asked that the latter provisions, including a prohibition against the transportation of goods to belligerents in American ships, be enacted at once and that repeal of the arms embargo be considered later.

George, one of the Democratic members of the foreign relations committee who drafted the bill, said there had been growing protests from shipping interests against a provision prohibiting American vessels from carrying any materials to belligerents and barring them from combat zones.

To Consider Revision

"It is my judgment," George said, "that the Democratic members of the committee will meet again soon and consider some revisions in this section."

George also indicated that the financial section of the measure, under which belligerents may be granted 90-day credit on purchases or supplies in this country, would be subjected to further study.

The Georgia senator said he agreed there would be little, if any, American trans-Atlantic shipping under terms of the bill as it now stands.

Tobey argued that unless the procedure he suggested was adopted "there is some likelihood that our own ships will be in danger of being sunk in the war zones at any time, and thus endanger the determination of this country to keep out of the European war."

Under a senate agreement, Tobey's motion will be voted upon Monday.

Defeat is Predicted.

Majority Leader Barkley (D-Ky) and Senator Pittman (D-Tenn) predicted Tobey's motion would be defeated when it is argued Monday.

The New Hampshire Senator advanced his suggestion late yesterday after Senators Connally (D-Tex) and Vandenberg (R-Mich) had spoken for and against the administration measure, which would replace the arms embargo and substitute a "title and carriage" system of sale to warring nations.

Tobey still held the floor today at the resumption of the senate session (11 a. m. CST). Assured to follow him were Senators Overton (D-La) and Nye (R-N.D.) embargo advocates, and Schwellenbach (D-Wash) who favors repeal.

At the White House, Stephen Early, presidential secretary, said in response to an inquiry about shifting sentiment in the senate that signs of vote changes were "very satisfactory." He did not disclose what sings the White House had noted.

Tobey argued the "title and carriage" provision should be enacted immediately to avoid American ships being sunk.

Pittman said it was "perfectly absurd" to divide the bill.

Would Declare War Zone.

Senator Tobe (R-Ore) who advocates lifting the embargo, said he would offer an amendment to eliminate the section forbidding American ships to visit warring nations of their possessions. Instead he would have congress de-

clare a war zone around Europe. Pittman said Taff's amendment might work hardships, as there might be some "safe zones" in Europe where American vessels could go without danger.

Senators on both sides criticized the resolution offered yesterday by Senator Johnson (D-Colo) asking the President to take the initiative in urging other neutrals to work for an armistice in the European war.

Senator Clark (D-Mo) said some might regard the proposal as pro-German. "Since Hitler is on top now and he would want an armistice now."

Taff said such moves were up to the President rather than to Congress; and added that "sometimes an appeal for peace is an unnatural act."

Administration leaders said the loss of one vote for peace through Senator Logan's death had been made up by a decision of Senator Chayes (D-N.M.) to support the bill.

Capt. W. F. Gaye said the sub was sighted, heading southward without lights, at 8 p. m. last Monday 15 miles south of San Benito Island.

Turned Cold Shoulder

COPENHAGEN, Denmark, Oct. 5.—(AP)—Danish shipowners turned a cold shoulder today to Soviet Russia's inquiry as to whether they would charter ships to transport timber from the White sea to England and France.

Norway has replied the Soviet Union can have as many ships as she wants, while Swedish and Finnish owners showed interest in the proposition, but reserved a final decision.

Russia's gesture aroused speculation as to her position inasmuch as Germany has allied neutral countries she considers woodpulp as contraband. Five Swedish ships, two of them loaded with wood-pulp, were seized by the Germans yesterday.

Net Abandoned.

Britain has virtually abandoned the anti-torpedo nets slung on booms from the sides of ships during the World War. The nets seldom proved strong enough to stop a torpedo, and their weight hampered maneuvering.

Bigger and stronger nets, designed to stop and entangle attacking submarines itself, now are strung across the entrances to every British port.

Britain has improved submarine detection apparatus, details of which have been carefully hidden. Successive admiralty officials have dropped hints in parliament, however, of a virtually infallible "machine."

The hydrophone, a highly sensitive electrical "ear" fitted to the hull of every warship, has been greatly improved by every world naval power since 1918.

The admiralty plans by the end of this month to have in service a submarine-hunting force three times as great as that at the start of the war.

FRENCH

(Continued From Page One) in gains in the Moselle river sector.

Semi-official military information said the French now were in full possession of the Borg forest in the pocket between the Moselle and Saar rivers near the border of neutral Luxembourg.

While a general staff communiqué this morning reported only "intermittent artillery actions at different points on the front," dispatches from Luxembourg said capture of the Borg forest had been marked by close range combat between French and German tanks.

These gains, it was said, placed the French in better position to resist any Nazi attempt to out-

ing the ship in a neutral port.

The newspaper did not identify the neutral port but said the Bremen's company along with the crew of the Steamer Iller had reached Bremerhaven on the steamer Sierra Cordoba. The Iller and Sierra Cordoba are both German vessels.

The homecoming seamen were given a cheering reception and the Bremen's captain, Adolf Ahrens, was promoted to commander by order of Adolf Hitler.

blank the Maginot defenses by advancing through Luxembourg—a possibility that French military men apparently were not ready to discuss lightly.

There was no evidence of any immediate spectacular military activity as the general staff appeared bent on keeping casualties to a minimum and using time as an ally to bring Germany down.

The press acclaimed the speech yesterday by Premier Daladier, who asserted France would fight until victorious in the war "that has been forced upon us."

Editorial comment also was directed against the communist deputies who have been urging peace talks.

The Catholic newspaper Le Figaro declared editorially that "cutting out the communist abases is a public health measure; they shot men for less during the last war."
